## **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Hunter E. Webb on 30 November 2006.

The application has been amended as follows: Claim 2 has been canceled.

## **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: The claim in this application has been allowed because the prior art does not disclose an aquarium system having, inter alia, a conditioning tank with plumbing connected to its bottom, the plumbing including a vertical section containing a check valve, a horizontal segment oriented towards the back of an aquarium, and a horizontal segment ball valve, the plumbing further extending downwardly to and entering into a fish tank and terminating in a spout, a splash guard located below the spout; combined overflow and waste lines for the conditioning and fish tanks, the overflow and waste lines including a common vent and bulkheads; and a tee connector located behind a second ball valve.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

This case is being passed to issue with the single allowed claim.
